Circular to members # 152/2018-19

July 20, 2019

Registered Exporters System (REX) by Turkey

As informed by the Embassy of the Republic of Turkey in Pakistan, Turkey is implementing the Registered Exporters System (REX) for origin certification effective July 1, 2019 and has been made part of the REX of the European Union . Turkey is allowing a transition period of three months ending September 30, 2019 for the purpose. During the transition period, Turkey will accept both Statement of Origin issued by REX registered exporters as well as Certificate of Origin (Form A) issued by the TDAP.

Accordingly, exporters already registered under the REX system of the European Union (EU) may start issuing Statement of Origin for their exports to Turkey with immediate effect while those not yet part of the REX system are advised to get themselves registered under REX on priority. TDAP will completely stop issuance of the Certificate of Origin (Form A) for Turkey effective October 1, 2019.

Further details regarding procedure for registration of exporters under REX and operational aspects of the REX system covering exports to the EU, Norway, Switzerland and Turkey under the GSP preferential arrangement are available on TDAP website under the banner “REX System for EU GSP”.

As per the REX regime of Turkey/EU, where a supplier provides the exporter or the trader with the information necessary to determine the originating status of goods, he shall do so by means of a “supplier’s declaration”. A separate supplier’s declaration shall be provided for each consignment of goods (Annex-I) except in cases of long-term supplies where a long-term supplier’s declaration can be provided covering a maximum period of up to 24 months (Annex-II).

Detailed circular is readily available at the Association secretariat; copy of which can be had on request.

M. Siddique
